

GRYR 8008-A
ITEM 105
FUEL SURCHARGE

APPLICATION: Applicable on (1) regulated and exempt traffic moving on local and proportional rates contained in this tariff, and (2) regulated and exempt traffic moving on line-haul rates under pricing documents (tariffs, contracts, quotes, etc.) making reference to this item.

In the event that the monthly average price per gallon of highway diesel fuel (as determined below, the "HDF Average Price") equals or exceeds 200.0 cents, the GRYR reserves the right to apply a mileage-based fuel surcharge (MBFSC) to the rates and charges as described above.

If this right is exercised, the mileage based fuel surcharge will be applied to each qualifying movement on or after the first (1st) day of the second (2nd) calendar month following the calendar month of a given HDF Average Price determination.

The "HDF Average Price" for a month will be the average price for that month of U.S. No. 2 Diesel Retail Sales by All Sellers, as determined and published by the U. S. Department of Energy, Energy Information Administration ("DOE-EIA"). That average price will, in calculating the HDF Average Price, be rounded to the nearest 1/10 of a cent. The fuel surcharge will be 1 cent per mile per railcar for every 4¢ per gallon, or portion thereof, by which the HDF Average Price for the calendar month two months prior to the calendar month of shipment exceeds 199.9 cents.

If DOE-EIA ceases publication of the above information, GRYR will employ a suitable substitute source of price or measure. The mileage to be applied in calculating the fuel surcharge will be based on rail miles.

The following table reflects a sampling of the fuel surcharge within the included HDF Average Price ranges.
